

## OFFLOAD + BACKUP

- Create a folder before copying files
- Copy card to primary computer
- Copy the same files to backup drive/cloud
- Do not format card until backup is verified
- Name folder with date, farm, field, crop, purpose
- Export flight log / app record if available
- Save LAANC or airspace note if applicable
- Keep raw images even if processing fails

## SUGGESTED FOLDER NAMING

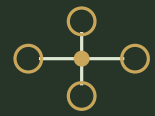

2026-06-15\_Field03\_Corn\_V8\_NDRE/

2026-06-21\_North80\_Soy\_R3\_DiseaseScout/

2026-07-02\_Field07\_Corn\_StormDamage\_RGB/

## MAP QA BEFORE INTERPRETATION

- No missing strips or holes
- No severe blur or rolling shutter
- Lighting consistent across field
- Legend/index/date visible on exported map
- Field boundary correct
- Color scale locked if comparing dates

## DECISION LOG

Date	Map / field	Finding	Decision / action	Owner

WHAT DID THIS FLIGHT CHANGE?

---

---

---

### CLOSE THE FOLDER LOOP

A flight without a decision note becomes a pile of photos. Write the management question, the answer, and the next action while it is still fresh.
